Lion Rock Resources Inc. (formerly King's Bay Resources Corp.)

Management's Discussion and Analysis

For the Year Ended December 31, 2023

The following Management's Discussion and Analysis ("MD&A") of the financial position and results of operations for Lion Rock Resources Inc. (the "Company" or "Lion Rock") should be read in conjunction with the audited consolidated financial statements as at December 31, 2023 and for the year then ended, which are prepared using accounting policies consistent with IFRS Accounting Standards ("IFRS") as issued by the International Accounting Standards Board.

This discussion provides management's analysis of the Company's historical financial and operating results, and provides estimates of the Company's future financial and operating performance based on information that is currently available. Actual results will vary from estimates and the variances may be significant. Readers should be aware that historical results are not necessarily indicative of future performance. Unless otherwise stated, all amounts discussed herein are denominated in Canadian dollars.

Additional information on the Company is available on SEDAR+ at www.sedarplus.ca.

CORPORATE OVERVIEW

Lion Rock was incorporated pursuant to the *Canada Business Corporations Act* on March 20, 1998. On August 11, 2020, the Company continued from being incorporated under Canadian federal jurisdiction to being incorporated under the *Business Corporations Act* of British Columbia. The Company is listed on the TSX Venture Exchange ("TSX-V") in Canada with the symbol "ROAR". The Company is in the business of acquiring, exploring, developing and evaluating mineral resource properties. The Company changed its name from King's Bay Resources Corp. to Lion Rock Resources Inc. on July 7, 2022.

The head office, principal address, and registered and records office of the Company is Suite 1615 – 200 Burrard Street, Vancouver, British Columbia, V6C 3L6.

KEY DEVELOPMENTS – 2023 TO DATE

On March 6, 2023, the Company consolidated its shares on the basis of 2.5 pre-consolidation shares for one post-consolidation share.

On June 8, 2023, the Company entered into an option agreement to acquire the Revell Property, located 25 kilometres east of Ignace, Ontario, consisting of 112 claims covering 2,350 hectares. The project lies on trend of the Raleigh Lake pegmatite field, which hosts the Raleigh Lake lithium-rubidium deposit.

On June 13, 2023, the Company entered into an option agreement to acquire the Fleuron Property, located 35 kilometres south of Val d'Or, Québec, consisting of 205 claims spanning 11,380 hectares. The project lies within a highly prospective region with limited lithium exploration history. The property is host to over 150 documented pegmatite outcrops.

On August 23, 2023, the Company closed a non-brokered private placement of 10,700,000 units at a price of \$0.10 per unit for gross proceeds of \$1,070,000. Each unit consisted of one common share and one share purchase warrant, with each warrant exercisable into one additional common share at a price of \$0.20 for a period of two years from closing. The warrants are subject to an accelerated expiry if the common shares of the Company trade on the TSX-V at a price of \$0.40 per unit or more for five consecutive trading days. The accelerated expiry date would be 30 days after the Company provides notice to the holders.

On January 26, 2024, the Company entered into a non-binding letter of intent ("LOI") to acquire the Volney lithium property, located in South Dakota. The LOI provides for the parties to enter into a formal option agreement under which the Company will be granted the sole and exclusive right and option to acquire the Volney lithium property.

Under the terms of the LOI, in order to acquire a 100% interest in the property, the Company will be required to make cash payments and issue common shares of the Company as follows:

- Pay US\$25,000 upon execution of the LOI (paid);
- Pay US\$475,000 within five business days of TSX-V approval;

Lion Rock Resources Inc. (formerly King's Bay Resources Corp.)
Management's Discussion and Analysis
For the Year Ended December 31, 2023

- Issue common shares of the Company equal to 9.9% of the issued and outstanding common shares of the Company on an undiluted, post-transaction basis and post-financing basis to the extent that the Company undertakes financing in connection with the LOI or the option agreement within five business days of TSX-V approval;
- Pay US\$1,250,000 within 10 business days of the first anniversary of TSX-V approval;
- Issue common shares of the Company within 10 business days of the first anniversary of TSX-V approval equal to the greater of:
 - The number of shares required for the vendors to maintain their shareholdings at an amount equal to 9.9% of the then issued and outstanding common shares of the Company; or
 - the amount equal to a value of US\$500,000 based on the 20-day volume-weighted average price of the Company's common shares;
- Pay US\$2,250,000 within 10 business days of the second anniversary of TSX-V approval; and
- Issue common shares of the Company within 10 business days of the second anniversary of TSX-V approval equal to the greater of:
 - The number of shares required for the vendors to maintain their shareholdings at an amount equal to 9.9% of the then issued and outstanding common shares of the Company; or
 - the amount equal to a value of US\$750,000 based on the 20-day volume-weighted average price of the Company's common shares.

The share issuances described above will be subject to the prior approval of the TSX-V.

Also under the LOI, the Company will be required to incur exploration expenditures as follows:

- Incur US\$1,800,000 of exploration expenditures on the property on or before the first anniversary of TSX-V approval; and
- Incur US\$3,500,000 of exploration expenditures on the property on or before the second anniversary of TSX-V approval.

The parties will also enter into:

- A gross smelter returns ("GSR") royalty agreement, other than for gold, under which the Company will grant the vendor a 2% GSR royalty on the property subject to a buy-back option exercisable upon the commencement of commercial production for a period of five years in favour of the Company equal to 1% of the GSR royalty for US\$1,000,000; and
- A net smelter return ("NSR") royalty agreement for gold under which the Company will grant the vendor a 2% NSR royalty on the property subject to a buy-back option exercisable upon the commencement of commercial production for a period of five years in favour of the Company equal to 1% of the NSR royalty for US\$1,000,000.

On March 11, 2024, the Company closed a non-brokered private placement of 10,000,000 units at a price of \$0.10 per unit for gross proceeds of \$1,000,000. Each unit consisted of one common share and one share purchase warrant, with each warrant exercisable into one additional common share at a price of \$0.20 for a period of two years from closing. The Company issued 400,000 common shares and 400,000 share purchase warrants with the same terms as the unit warrants as finder's fees.

Management's Discussion and Analysis
For the Year Ended December 31, 2023

ANNUAL FINANCIAL INFORMATION

Financial Data

The following table shows selected key financial information for the last three fiscal years:

| | Year ended December 31, 2023 \$ | Year ended December 31, 2022 \$ | Year ended December 31, 2021 \$ |
|---|--|--|--|
| Total revenues | Nil | Nil | Nil |
| Loss for the year before taxes | (3,035,942) | (351,993) | (319,439) |
| Weighted average number of shares outstanding | 22,966,493 | 13,506,932 | 8,558,596 |
| Loss per share | (0.13) | (0.03) | (0.04) |
| Total assets | 1,083,770 | 2,494,060 | 165,603 |
| Non-current liabilities | 1,600,000 | 1,350,000 | Nil |
| Cash dividends | Nil | Nil | Nil |

The Company has recorded losses in each of its three most recently completed fiscal years and expects to continue to record losses until such time as an economic resource is identified, developed and brought into profitable commercial operation.

OPERATING RESULTS

For the Three Months Ended December 31, 2023

Net loss for the three months ended December 31, 2023 was \$2,538,342, compared to a net loss during the three months ended December 31, 2022 of \$113,921. The significant differences include:

- Accounting and audit fees of \$41,635 (2022 - \$29,135) increased due to higher audit and related fees, as well as additional accounting services utilized;
- Consulting fees of \$166,000 (2022 - \$34,500) increased due to higher chief executive officer fees being paid in 2023 and additional consultants engaged in 2023;
- Exploration and evaluation expenditures of \$81,594 (2022 - \$nil) increased due to geological expenditures on the Maybrun, Revell and Fleuron properties;
- Legal fees of \$10,897 (2022 - \$985) were higher in 2023 due to the timing of expenses;
- Office and general of \$7,124 (2022 - \$1,938) increased due to an increase in software expenditures compared to the prior period;
- Public company costs of \$17,536 (2022 - \$19,766) were comparable to the prior period;
- Rent of \$12,000 (2022 - \$12,000) was comparable to the prior period;
- Shareholder communications and investor relations expenses of \$10,243 (2022 - \$15,842) decreased in 2023. The comparative period included branding and website design costs not incurred in 2023;
- Travel of \$27,629 (2022 - \$nil) increased due to travel normalizing during the period;
- Impairment of exploration and evaluation assets of \$1,913,684 (2022 - \$nil) related to the impairment of the Maybrun Property; and
- Change in asset retirement obligation of \$250,000 (2022 - \$nil) related to an adjustment to the estimated fair value of the mine reclamation and closure costs at the Maybrun Property.

For the Year Ended December 31, 2023

Net loss for the year ended December 31, 2023 was \$3,035,942, compared to a net loss during the year ended December 31, 2022 of \$351,993. The significant differences include:

- Accounting and audit fees of \$107,136 (2022 - \$69,230) increased due to higher audit and related fees, as well as additional accounting services utilized;

Lion Rock Resources Inc. (formerly King's Bay Resources Corp.)
Management's Discussion and Analysis
For the Year Ended December 31, 2023

- Consulting fees of \$409,000 (2022 - \$58,289) increased due to higher chief executive officer fees being paid in 2023 and additional consultants engaged in 2023;
- Exploration and evaluation expenditures of \$117,506 (2022 - \$nil) increased due to environmental and geological expenditures on the Maybrun, Revell and Fleuron properties;
- Legal fees of \$34,653 (2022 - \$74,367) were lower in 2023. The comparative period had substantial fees related to the acquisition of the Maybrun Property and the Company's re-activation to the TSX-V;
- Office and general of \$12,609 (2022 - \$9,973) increased due to an increase in shared office expenditures compared to the prior period;
- Public company costs of \$101,842 (2022 - \$80,552) increased due to share consolidation costs and market maker services in the current period;
- Rent of \$48,000 (2022 - \$16,000) increased due to the Company sharing office space commencing in September 2022;
- Shareholder communications and investor relations expenses of \$13,883 (2022 - \$43,582) decreased in 2023. The comparative period included branding and website design costs not incurred in 2023;
- Travel of \$27,629 (2022 - \$nil) increased due to travel normalizing during the period; and
- Impairment of exploration and evaluation assets of \$1,913,684 (2022 - \$nil) related to the impairment of the Maybrun Property; and
- Change in asset retirement obligation of \$250,000 (2022 - \$nil) related to an adjustment to the estimated fair value of the mine reclamation and closure costs at the Maybrun Property.

SUMMARY OF QUARTERLY RESULTS

| | December 31, 2023 | September 30, 2023 | June 30, 2023 | March 31, 2023 |
|----------------------------------|------------------------------|-------------------------------|--------------------------|---------------------------|
| | \$ | \$ | \$ | \$ |
| Revenues | Nil | Nil | Nil | Nil |
| Loss from continuing operations | (2,538,342) | (238,200) | (149,826) | (109,574) |
| Net loss and comprehensive loss | (2,538,342) | (238,200) | (149,826) | (109,574) |
| Basic and diluted loss per share | (0.10) | (0.01) | (0.01) | (0.01) |
| Total assets | 1,083,770 | 3,421,866 | 2,529,869 | 2,436,714 |
| Non-current liabilities | 1,600,000 | 1,350,000 | 1,350,000 | 1,350,000 |

| | December 31, 2022 | September 30, 2022 | June 30, 2022 | March 31, 2022 |
|----------------------------------|------------------------------|-------------------------------|--------------------------|---------------------------|
| | \$ | \$ | \$ | \$ |
| Revenues | Nil | Nil | Nil | Nil |
| Loss from continuing operations | (113,921) | (192,618) | (18,111) | (27,343) |
| Net loss and comprehensive loss | (113,921) | (192,618) | (18,111) | (27,343) |
| Basic and diluted loss per share | (0.01) | (0.00) | (0.00) | (0.00) |
| Total assets | 2,494,060 | 1,296,654 | 126,255 | 139,954 |
| Non-current liabilities | 1,350,000 | - | - | - |

Over the course of the last two fiscal years, the Company's loss from continuing operations has been fairly consistent based on the limited business activities. The Company's re-activation to the TSX-V and acquisition of the Maybrun Property in Q3 2022 led to an increase in expenditures and net loss that has continued into Q4 2023.

Capital Resources

The Company's present cash resources are not sufficient to meet all of its current liabilities and administrative and overhead expenses for the next twelve months. The Company will need to raise additional funds for general working capital requirements.

Lion Rock Resources Inc. (formerly King's Bay Resources Corp.)

Management's Discussion and Analysis

For the Year Ended December 31, 2023

The Company will continue to require funds to acquire new properties or projects. As a result, the Company may have to continue to rely on equity and debt financing. There can be no assurance that financing, whether debt or equity, will always be available to the Company in the amount required at any particular time or for any particular period or, if available, that it can be obtained on terms satisfactory to the Company.

The Company's financial success will be dependent on the economic viability of its future resource properties and the extent to which it can discover and develop new mineral deposits. Such development may take several years to complete and the amount of resulting income, if any, is difficult to determine.

The Company has taken the following measures to address working capital concerns during the 2023 fiscal period, and as of the date of this MD&A:

- On August 23, 2023, the Company closed a non-brokered private placement of 10,700,000 units at a price of \$0.10 per unit for gross proceeds of \$1,070,000.
- On March 11, 2024, the Company closed a non-brokered private placement of 10,000,000 units at a price of \$0.10 per unit for gross proceeds of \$1,000,000.

EXPLORATION AND EVALUATION ASSETS

Maybrun Property

The Maybrun Property is a past producing mine (Maybrun gold-copper deposit) that was placed on care and maintenance in 1974 for several years prior to an exploration program conducted by Opawica Explorations Inc. in 2005. The Maybrun Property is located in the Atikwa Lake area of the Kenora Mining Division, approximately 80 kilometres southeast of the town of Kenora, in northwestern Ontario.

On July 7, 2022, the Company closed its acquisition of a 100% interest in the Maybrun Property, through the acquisition of Lion Rock Exploration Inc. ("LRE"). The Company acquired all of the issued and outstanding common shares of LRE in exchange for the issuance of 2,000,000 common shares to the shareholders of LRE and the issuance of 80,000 common shares to the former vendors of the Maybrun Property.

LRE acquired a 100% interest in the Maybrun Property, encompassed by 20 patented mining claims, in early 2020, and subsequently carried out an initial work program. Access to the property is via paved highways and 28 kilometres of logging roads.

The Company estimated the fair value of the asset retirement obligation for the Maybrun Property to be \$1,600,000 at December 31, 2023 (2022 - \$1,350,000). The fair value of the liability was determined to be equal to the estimated remediation costs. The Company is still in the early stages of developing a remediation plan, which will then require approval from the relevant governmental authorities. Due to the early stages of the remediation plan, the Company is unable to predict with any precision the timing of the cash flow related to the reclamation activities. The Company anticipates the reclamation activities and related costs to occur over a significant period of time, with the majority of the expenditures expected to occur from 2025 onwards.

The Company has no further exploration plans for the Maybrun Property. Accordingly, at December 31, 2023, the Maybrun Property was deemed to be impaired and written down to \$1.

Revell Property

On June 8, 2023, the Company entered into an option agreement to acquire a 100% interest in the Revell Property, located 25 kilometres east of Ignace, Ontario, consisting of 112 claims covering 2,350 hectares. The project lies on trend of the Raleigh Lake pegmatite field, which hosts the Raleigh Lake lithium-rubidium deposit. Under the terms of the agreement, the Company is required to make cash payments and issue common shares of the Company as follows:

- Issue 1,600,000 common shares of the Company within five days of approval by the TSX-V, which was received on June 21, 2023 (issued and valued at \$192,000);
- Pay \$150,000 (paid) on or before December 21, 2023; and
- Pay \$100,000 (paid) and issue 2,000,000 common shares of the Company on or before June 21, 2024.

Lion Rock Resources Inc. (formerly King's Bay Resources Corp.)

Management's Discussion and Analysis

For the Year Ended December 31, 2023

The claims are subject to a 2% NSR royalty, of which one-half (1%) can be purchased by the Company for \$500,000.

Fleuron Property

On June 13, 2023, the Company entered into an option agreement to acquire the Fleuron Property, located 35 kilometres south of Val d'Or, Québec, consisting of 205 claims spanning 11,380 hectares. The project lies within a highly prospective region with limited lithium exploration history. The property is host to over 150 documented pegmatite outcrops. Under the terms of the agreement, the Company is required to make cash payments and issue common shares of the Company as follows:

- Issue 1,500,000 common shares of the Company within five days of approval by the TSX-V, which was received on July 19, 2023 (issued and valued at \$180,000);
- Pay \$100,000 (paid) on or before January 19, 2024;
- Pay \$150,000 and issue 2,000,000 common shares of the Company on or before July 19, 2024; and
- Pay \$150,000 and issue 2,000,000 common shares of the Company on or before July 19, 2025.

The claims are subject to a 2% NSR royalty, of which one-half (1%) can be purchased by the Company for \$500,000.

EVENTS SUBSEQUENT TO DECEMBER 31, 2023

See **Key Developments – 2023 to Date**.

TRANSACTIONS WITH RELATED PARTIES

These amounts of key management compensation are included in the amounts shown on the consolidated statements of operations and comprehensive loss for the years ended December 31, 2023 and 2022:

| | 2023 | 2022 |
|--|-------------------|------------------|
| Short-term compensation | | |
| Accounting fees | \$ 36,000 | \$ 43,000 |
| Consulting fees | 133,000 | 37,500 |
| Exploration and evaluation expenditures (geological) | 20,000 | - |
| | \$ 189,000 | \$ 80,500 |

During the year ended December 31, 2023, the Company incurred \$48,000 (2022 - \$16,000) in rent to a company with a common officer.

As at December 31, 2023, the Company has outstanding amounts payable to an officer of the Company of \$5,250 (2022 - \$3,150) and to a company with a common officer of \$nil (2022 - \$4,200).

At December 31, 2023, the Company has an amount payable of \$14,945 to a private company in which an officer and director is a director. The balance was outstanding at December 31, 2022, but the private company was not a related party at the time.

These transactions are in the normal course of operations and have been valued in these consolidated financial statements at the exchange amount, which is the amount of consideration established and agreed to by the related parties. The amounts due are unsecured, non-interest-bearing and have no specific terms of repayment.

DISCLOSURE OF OUSTANDING SHARE DATA

The following is a breakdown of the share capital of the Company on an annual basis and the date of this report:

| | April 26, 2024 | December 31, 2023 | December 31, 2022 |
|----------------------|-----------------------|--------------------------|--------------------------|
| Common shares | 41,868,685 | 31,468,685 | 17,668,685 |
| Warrants | 24,100,000 | 13,700,000 | 3,000,000 |
| Stock options | - | - | - |
| Fully diluted shares | 65,968,685 | 45,168,685 | 20,668,685 |

For additional details of outstanding share capital, refer to Notes 9 and 10 of the consolidated financial statements for the year ended December 31, 2023.

FINANCIAL RISK MANAGEMENT

The Company is exposed in varying degrees to a variety of financial instrument-related risks. The Board of Directors approves and monitors the risk management processes, inclusive of documented investment policies, counter party limits, and controlling and reporting structures. The type of risk exposure and the way in which such exposure is managed is provided as follows:

(a) Credit risk

Credit risk is the risk of loss associated with a counter party's inability to fulfill its payment obligations. The Company's credit risk is primarily attributable to its cash balance. The Company manages its credit risk on bank deposits by holding deposits in high credit quality banking institutions in Canada.

(b) Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company has a planning and budgeting process in place to help determine the funds required to support the Company's normal operating requirements on an ongoing basis. The Company ensures that there are sufficient funds to meet its short-term business requirements, taking into account its anticipated cash flows from operations and its holdings of cash.

Historically, the Company's sole source of funding has been the issuance of equity securities for cash, primarily through private placements. The Company's access to financing is always uncertain. There can be no assurance of continued access to significant equity funding.

(c) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company has a cash balance and is not exposed to any significant interest rate risk.

(d) Capital management

Capital is comprised of the Company's shareholders' equity and any debt it may issue. As at December 31, 2023, the Company's shareholders' deficit was \$726,045 (2022 – equity of \$881,972). The Company manages its capital structure and makes adjustments to it, based on the funds available to the Company, in order to support its operations and business development. The Board of Directors does not establish quantitative return on capital criteria for management, but rather relies on the expertise of the Company's management to sustain future development of the business.

The Company has not generated any revenues and cash flows since its inception; therefore, the Company is dependent on external financing to fund its future intended business plan. The capital structure of the Company

Lion Rock Resources Inc. (formerly King's Bay Resources Corp.)

Management's Discussion and Analysis

For the Year Ended December 31, 2023

currently consists of working capital and shareholders' equity. The Company manages the capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the Company may issue new shares through private placements. The Company is not subject to externally imposed capital requirements.

Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable.

(e) Fair value

The fair values of the Company's financial assets and liabilities measured at amortized cost approximate their carrying amounts.

Financial instruments measured at fair value are classified into one of three levels in the fair value hierarchy according to the relative reliability of the inputs used to estimate the fair values. The three levels of the fair value hierarchy are:

- Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities;
- Level 2 – Inputs other than quoted prices that are observable for the asset or liability either directly or indirectly; and
- Level 3 – Inputs that are not based on observable market data.

The level in the fair value hierarchy within which the financial asset is categorized in its entirety is based on the lowest level of input that is significant to the fair value measurement.

Cash is grouped into Level 1 as at December 31, 2023 and 2022.

Financial instruments that are not measured at fair value on the consolidated statement of financial position are represented by accounts payable and accrued liabilities and loans payable. The fair values of these financial instruments approximate their carrying values due to their short-term nature.

RISKS AND UNCERTAINTIES

Going Concern

The Company has not generated any revenues and has incurred a net loss of \$3,035,942 during the year ended December 31, 2023 (2022 - \$351,993) and accumulated deficit of \$24,243,736 (2022 - \$21,207,794) since inception. As at December 31, 2023, the Company has working capital of \$151,954 (2022 - \$319,503). These consolidated financial statements have been prepared on the basis of accounting principles applicable to a going concern, which assumes that the Company will continue in operation for the foreseeable future and will be able to realize its assets and discharge its liabilities in the normal course of operations.

The application of the going concern concept is dependent upon the Company's ability to satisfy its liabilities as they become due and to obtain the necessary financing to complete the exploration and development of its diamond and fluorspar mineral property interests, the attainment of profitable mining operations or the receipt of proceeds from the disposition of its mineral property interests. Management is actively engaged in the review and due diligence on opportunities of merit in the mining sector and is seeking to raise the necessary capital to meet its funding requirements. Therefore this casts significant doubt, primarily as a result of the conditions described above, as to the appropriateness of the use of the going concern assumption.

The Company is not expected to be profitable during the ensuing twelve months, and therefore, must rely on securing additional funds from either debt or equity financings for cash consideration. While the Company is expanding its best efforts to achieve the continued financing, there is no assurance that any such activity will generate sufficient funds for future operations.

Lion Rock Resources Inc. (formerly King's Bay Resources Corp.)

Management's Discussion and Analysis

For the Year Ended December 31, 2023

Raising Capital Funding and Dilution

The profitability of the Company is affected by business risks, including the price of gold, the normal risks associated with open pit and underground mining, which affects production rates and costs, and the exchange rate between the Canadian dollar and United States dollar. Once the Company commences production, outside financing will be required. While the Company has been successful in the past, there is no assurance that funding will be available under terms that are satisfactory to management. The ability of the Company to achieve its operational objectives is dependent in large measure on the results of the exploration activities and the ability to raise capital funding for continued exploration. The Company frequently issues common shares to finance its operations and for working capital purposes. It is possible that the Company will enter into more agreements to issue common shares, warrants and options to purchase common shares. The impact of the issuance of a significant amount of common shares, along with warrant and option exercises, could place downward pressure on the market price of the common shares, and at a minimum, such issuances will dilute the existing shareholders' interests in the Company.

Dependence on Management

The Company is dependent on a relatively small number of key personnel, the loss of any of whom could have an adverse effect on the Company. The Company does not maintain any key man insurance on any of its employees.

Conflicts of Interest

Certain of the directors and officers of the Company are also directors and/or officers of other companies, and may be shareholders of those companies. Such associations or relationships may give rise to conflicts of interest from time to time. The Company's directors are required by law to act honestly and in good faith with a view to the best interests of the Company and to disclose any interest that they may have in any project or opportunity of the Company. If a conflict of interest arises at a meeting of the Board of Directors, any director in a conflict must disclose his/her interest and abstain from voting on such matters in accordance with applicable corporate laws, and may be required to resign as a director of one of the companies.

Payment Obligations

The Company is, or may in the future become, a party to certain contractual agreements pursuant to which the Company is or may become subject to payments and be required to comply with other obligations. If such obligations are not complied with when due, in addition to any other remedies that may be available to the other parties, this could result in dilution or forfeiture of interests held by the Company. The Company may not have, or be able to obtain, financing for all such obligations as they arise.

Future Capital Requirements

The Company may encounter significant unanticipated liabilities or expenses. The Company's ability to continue its planned exploration activities depends in part on its ability to obtain additional financing in the future to fund exploration and development activities or acquisitions of additional projects. Since incorporation on March 20, 1998, the Company has raised capital primarily through equity financing, and in the future may raise capital through equity or debt financing, joint ventures or other means. There can be no assurance that the Company will be able to obtain the necessary financing in a timely manner, on acceptable terms or at all.

Dividends

No dividends on the common shares have been paid to date. The Company does not intend to declare or pay any cash dividends in the foreseeable future. Payment of any future dividends will be at the discretion of the Company's Board of Directors, after taking into account many factors, including the Company's operating results, financial condition, and current and anticipated cash needs.

Management's Discussion and Analysis

For the Year Ended December 31, 2023

Judgments, Estimates and Assumptions Employed in the Preparation of Financial Statements

The preparation of consolidated financial statements requires management to make judgments, estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the consolidated financial statements and reported amounts of expenses during the reporting period. Estimates and assumptions are continuously evaluated and are based on management's experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. However, actual outcomes can differ from these estimates.

Asset Retirement Obligation

The calculations for asset retirement obligation require significant estimates and assumptions, including estimates of the scope and cost of restoration activities, legislative amendments, known environmental impacts, and the effectiveness of maintenance and restoration measures. Changes to these variables could impact the amounts actually paid by the Company. Additionally, environmental legislation is becoming increasingly stringent and costs and expenses of regulatory compliance are increasing. The impact of new and future environmental legislation on the Company's operations may cause additional expenses and restrictions.

Management Judgments

The critical judgments that the Company's management has made in the process of applying the Company's accounting policies from those involving estimations that have the most significant effect on the amounts recognized in the Company's consolidated financial statements are as follows:

- The assessment of the Company's ability to continue as a going concern requires significant judgment. The consolidated financial statements have been prepared on the basis of accounting principles applicable to a going concern.
- The application of the Company's accounting policy for exploration and evaluation assets and impairment of the capitalized costs requires judgment in determining whether there are indicators of impairment under IFRS 6 *Exploration for and Evaluation of Mineral Resources*.
- The determination of the asset retirement obligation on the Maybrun Property requires management judgment on the timing and amount of remediation costs.

Geopolitical Events

The Company's business may be affected by changes in political and market conditions, such as interest rates, availability of credit, inflation rates, changes in laws, and national and international circumstances. Recent geopolitical events and potential economic global challenges, such as the risk of higher inflation and the energy crises, may create further uncertainty and risk with respect to the prospects of the Company's business.

OFF-BALANCE SHEET ARRANGEMENTS

The Company does not have any off-balance sheet arrangements.

FUTURE ACCOUNTING STANDARDS

Refer to Note 5 of the Company's consolidated financial statements for the year ended December 31, 2023 for new accounting standards adopted and new accounting pronouncements, if any.

FORWARD LOOKING STATEMENT

Certain information set forth in this MD&A, including management's assessment of the Company's future plans and operations, contains forward-looking statements. By their nature, forward-looking statements are subject to numerous risks and uncertainties, some of which are beyond these parties' control, including the impact of general economic conditions, industry conditions, volatility of commodity prices, currency fluctuations, imprecision of reserve estimates, environmental risks, competition from other industry participants, the lack of availability of qualified

personnel or management, stock market volatility, and the ability to access sufficient capital from internal and external sources. Readers are cautioned that the assumptions used in the preparation of such information, although considered reasonable at the time of preparation, may prove to be imprecise and, as such, undue reliance should not be placed on forward-looking statements. The Company's actual results, performance or achievement could differ materially from those expressed in, or implied by, these forward-looking statements, and accordingly, no assurance can be given that any events anticipated by the forward-looking statements will transpire or occur, or if any of them do so, what benefits the Company will derive there from. The Company disclaims any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

CORPORATE GOVERNANCE

The Board of Directors is currently comprised of the six individuals as appointed, elected or re-elected, and as noted below. The Company's bylaws provide that each director is elected to serve until the next annual and special meeting of shareholders, or until a successor is elected or appointed. The Board of Directors has established two committees: the Audit Committee and the Compensation Committee. Directors, officers and committee members are identified as follows:

- Dale Ginn – Director, President, Chief Executive Officer
- Kevin Bottomley* – Director
- Richard Boulay* – Director
- Nick Rodway – Director
- Jody Bellefleur* – Director
- Dominic Verdejo – Director

* member of the Audit Committee
